### ABOUT ME

I'm a CMS website developer working mainly with WordPress, Shopify, and Webflow. Over the last 2 years, I've built 30+ websites for different types of businesses. I mostly work on custom website builds, CMS setup, and eCommerce stores. I handle complete website projects from start to launch, including layout building, content structure, and basic performance setup. My goal is always to deliver a site that's easy to manage, fast, and practical for real business use.

### TECHNICAL SKILLS

- WordPress
- PHP
- Responsive Design
- YouTube Automation
- HTML5
- Bootstrap
- Shopify
- Liquid
- Elementor/Divi
- Theme Customization
- CSS3
- Figma to Website
- Webflow
- JavaScript
- Tailwind CSS
- Bug fixing
- WordPress Website Design
- PSD to Website Creation

### PROFESSIONAL EXPERIENCE

#### WordPress Dev, Index Adverts | April 2022 - December 2022

- Worked on WordPress theme customization, updating layouts, fixing design issues, and improving existing website structures based on project needs. Conducted front-end QA of listings to identify and highlight mistakes.
- Handled website layout fixes and responsiveness issues, making sure pages worked properly across different screen sizes and browsers. Collaborated with teams to ensure data accuracy and seamless functionality.
- Learned and applied new improvements throughout my web development journey, gaining hands-on experience with real client websites and practical problem-solving.

#### WP/Shopify Dev, Digittsols | Jan 2024 - Feb 2025

- Worked as a WordPress and Shopify developer, building and improving websites based on project requirements.
- Focused heavily on responsive design and layout handling, ensuring websites worked smoothly across desktop, tablet, and mobile devices.
- Built and refined some of my best website projects during this role, which helped strengthen my practical development and layout-fixing skills.

#### CMS Website Dev, Freelancer | Mar 2025 - Present

- Worked independently as a freelance CMS website developer, delivering WordPress, Shopify, and Webflow websites for clients from different industries.
- Managed complete website projects, including client communication, website setup, custom layouts, fixes, and final delivery.
- Built strong problem-solving and time-management skills by handling multiple projects, revisions, and deadlines while maintaining quality work.

## SELF EMPLOYED

### Youtube Channel | Dec 2025 - Present

- This channel is focused on discovering and sharing useful, practical, and everyday products that help make life easier, more organized, and more efficient.
- Here, you'll find carefully selected items including:
- Smart home essentials
- Daily-use gadgets
- Space-saving organizers
- Trending Amazon finds
- Practical solutions for modern living
- Each product is reviewed or showcased with the goal of helping viewers save time, improve convenience, and make smarter buying decisions.
- The channel is created for people who enjoy discovering simple products that actually solve real problems, without unnecessary hype.
